OBJECTIVE

Frontend Developer with 1+ Year of Experience in Web Development

I'm a web developer who loves turning ideas into functional, easy-to-use websites. While I'm solid in web technologies, I'm also the type of person who gets excited about learning new tools and switching gears to tackle different challenges. If there's a new technology, I'm the first to dive in (after a strong cup of coffee, of course). I'm looking for a full-time role where I can grow, keep learning, and have some fun along the way.

EDUCATION

Post Graduate Diploma in Advanced Computing,
Shriram Mantri Vidyanidhi Info Tech Academy

Feb 2025 - Aug 2025

EXPERIENCE

Web Developer
Marathe Infotech

Aug 2023 - Feb 2025
Pune, India

- Crafted eye-catching websites that boosted user engagement, ensuring a smooth and user-friendly experience.
- Led the charge in introducing creative design solutions, conducting tests to improve user satisfaction and maintaining a consistent brand look across digital platforms.
- Crafted engaging websites with PHP for reusable components and dynamic data loading, prioritizing user experience and page speed optimization..

Web Designer Intern
Gatitaa Technology

Dec 2022 - Mar 2023
Pune, India

- Assisted in creating visually appealing website layouts using Adobe Creative Suite, contributing to an immersive user experience.
- Actively participated in responsive design projects, refining skills in design adaptation and usability testing, under the mentorship of seasoned professionals.

PROJECTS

Visitor Entry Manager : Developed PHP-based Visitor Entry Manager system. Enabled admin to add, manage visitor info, and create visitor passes. Implemented sign in and password reset functionality. Used PHP, MySQL for dynamic interface. Prioritized user-friendly design and responsive interface. Code is on github. ([Click here](#))

PHP Websites : Created a modular website structure in PHP, dividing it into distinct components like header, footer, and product sections. Employed PHP includes to efficiently call and integrate these components into the main webpage. Enhanced code maintainability and reusability by separating the website layout into reusable modules. Implemented dynamic content loading for seamless updates across the website. Utilized PHP's flexibility to customize each component based on specific requirements. Demonstrated proficiency in structuring and organizing PHP code for improved scalability and maintainability.

Websites:

1. hydraulicmotorsindia.net
2. bluemaarlin.com
3. mediserveindia.in

HTML Websites : Designed and developed a static website using HTML, CSS, and JavaScript. Created a visually appealing and user-friendly interface to showcase content. Implemented responsive design principles to ensure compatibility across various devices and screen sizes. Utilized CSS frameworks like Bootstrap to streamline the styling process and enhance consistency. Incorporated SEO best practices such as meta tags and structured data to improve search engine visibility. Ensured fast optimized performance through efficient code and asset management. Deployed the website to a web hosting platform, ensuring accessibility to users worldwide.

Websites:

1. konnarkearththing.com
2. omaxcontrolsystems.com
3. spin-n-cast.com
4. cityskycab.com

EXTRA-CURRICULAR ACTIVITIES

- Smart India Hackathon 2020 and 2022
- Ethical Hacking Workshop by ELAN AND NVISION - IIT HYDERABAD (2020)
- Satellite Making Workshop by ZENITH ASTRONOMY CLUB (2020)
- Modern Operating System Installation by SUNBEAM INSTITUTE OF INFORMATION TECHNOLOGY (2019)
